The LocksOnline range of timers provide various weekly and daily programmes to control the automatic release of locks for "free access" periods. Easy to programme, with LCD digital displays to give visual feedback, these timers allow up to 8 on/off schedules to be applied daily or weekly - to make life easy, there are pre-set groups of days to assist in the setup and programming.

Whilst these function automatically, they also include a manual override button. Includes a built-in NCID battery for back up in the event of power failure, and offers a manual daylight savings adjustment setting.

### Overview

- Timed lock control
- Easy to programme/install
- Weekly/daily programmes
- 56 on/off triggers per week
- LCD digital display
- Heavy duty switching
- CMOS quartz technology
- 2 year warranty
