

# Product Information Sheet

## *Cig-Arrête Stand-Alone Module (Part No CSA-GDV)*

### Description

The new stand alone detector with integral voice sounder does not require any additional products.

The module is designed for single applications and only requires the insertion of 4 x AA size batteries or alternatively 1 x 9V PP3 battery. The module is fixed to the ceiling of the area to be protected by 2 screws and quite simply monitors the environment from this point on.

Coverage area approx 3m x 3m x 3m

### Product Features

- Fully self-contained battery operated detector and voice sounder
- Choice of two messages in any language or tone only
- User programmable message play in alarm (from 1 to 7 repeats)
- Variable Sensitivity to suit particular location
- Operates from 4 x AA alkaline or 1 x 9V PP3 alkaline battery
- Tough, aesthetic, brilliant white GRP housing
- Provides clear voice message at 92dB output in alarm with volume control
- May be connected to external equipment for remote monitoring (when using additional daughter-board module (CSA-DBD))
- May be remotely powered at 6V–12V dc (when using additional daughter-board module (CSA-DBD))

Message 1     “This is a no-smoking area, please extinguish your cigarette, a member of staff has been contacted”

Message 2     “This is a no-smoking vehicle, please extinguish your cigarette.”

Note:            Special messages are available in languages other than English
